GT-6011-2 豎壓試驗夾具 Edgewise Compression Fixture

JIS-Z0403-2, CNS 11486

本附件測試各種類型瓦楞紙板（包括單層、雙層及三層瓦楞紙板）的蝶形試樣之豎壓強度。

固定蝶形試樣上下兩端，使之成垂直狀，再整個置於環壓試驗機之壓縮板間，測試豎壓強度。

This attachment is used for determining the upright crush resistance of a butterfly type specimen taken from various corrugated boards including single wall, double wall and tri-wall.

Both ends of the butterfly type specimen are fixed vertically and then determine its upright crush resistance between two platens of the ring crush tester.

體積 Dimension (W×D×H)	15×10.5×6.5 cm
重量(約) Weight (approx.)	2 kg
